

CONTRACT Ref:123/2020

Requirements to participate in the call:

- Have Spanish nationality or work permit, or some other nationality that allows access to public sector employment. If you do not have it and this person is selected, the contract will not be formalized until the corresponding documentation is in order. In the event that this procedure is not finally completed within two months of the grant the selected person cannot be hired; leaving, in this case, the square deserted or referred to the next person in the event that priority order has been given in the Resolution.
- Be 16 years old and not exceed, where applicable, the maximum age of forced retirement or the other age that you may establish by law.
- The applicant will be bound by TEMPORARY WORK AGREEMENT with the Foundation for Health Research of the University Hospital and La Fe Polytechnic for the period determined for the research project. This procurement is subject to the granting of the relevant administrative authorisation.
- The Foundation and/or the Tribunal, for reasons of interest to the entity, may at any time withdraw the resolution or cancellation of this Call, without any justification.

Research Project Title: CHAIMELEON: Accelerating the lab to market transition of AI tools for cancer management

The EC recognises the existence of obstacles for the European community of developers of Artificial Intelligence (AI) solutions to accelerate their progress from the lab to the clinical setting, thus untapping their enormous potential for improving diagnosis, disease prediction and follow-up of the most common forms of cancer. The existing obstacles include regulatory compliance as GDPR limits transnational data share and open reuse; access to large volume of quality datasets for models training and testing; lack of standards to guide on development and validation routes for technical, operational and ethical AI solutions for health imaging; among others.

IIS La Fe has decided to publish a call for a job offer, by a competitive procedure, for a University degree Medicine, to perform the tasks in the framework of the Project.
