CONTRACT Ref:52/2021

Requirements to participate in the call:
-Have Spanish nationality or work permit, or some other nationality that allows access to public sector employment. If you do not have it and this person is selected, the contract will not be formalized until the corresponding documentation is in order. In the event that this procedure is not finally completed within two months of the grant the selected person cannot be hired; leaving, in this case, the square deserted or referred to the next person in the event that priority order has been given in the Resolution.
- Be 16 years old and not exceed, where applicable, the maximum age of forced retirement or the other age that you may establish by law.
- The applicant will be bound by TEMPORARY WORK AGREEMENT with the Foundation for Health Research of the University Hospital and La Fe Polytechnic for the period determined for the research project. This procurement is subject to the granting of the relevant administrative authorisation.
-The Foundation and/or the Tribunal, for reasons of interest to the entity, may at any time withdraw the resolution or cancellation of this Call, without any justification.

Research Project Title: HARMONY: HEALTHCARE ALLIANCE FOR RESOURCEFUL MEDICINES OFFENSIVE AGAINST NEOPLASMS IN HEMATOLOGY.

Haematological malignancies (HM), also known as blood cancers, are a heterogeneous and complex group of multicausal diseases that can't be easily diagnosed nor treated. Nowadays most treatments are extremely complex, and advances in patient diagnosis and therapies slow due to the low number of patients per centre. Thus, there is a need to harmonise, store, and analyse the current HM information to speed-up and support the decision-making process for patients' access to new therapies.
HARMONY is a European Network of Excellence that captures, integrates, analyses and harmonizes Big Data from high quality multidisciplinary sources for the purpose of acquiring valuable knowledge across the spectrum of hematologic malignancies (HMs). The HM-specific Big Data platform developed by HARMONY will enable the rapid definition of promising treatment strategies, and prediction of adverse events likely to be associated with such strategies.

IIS La Fe has decided to publish a call for a job offer, by a competitive procedure, for a Scientific project manager to perform the tasks in the framework of the Project.

Service/Unit/Accredited Group: HEMATOLOGY AND HEMOTHERAPY

Candidate requeriments: *(All requeriments are necessary to apply):*
University Degree - Health Sciences/Experimental sciences

Merits to value: *(0-5 points)*
- Experience in international environments, including research stays (0.5 point);
- Demonstrable experience in Next Generation Sequencing (NGS) and genomics (1.5 point);
- Specific training in haematology (2 points);
- Knowledge of Data Quality and Data Management (0.5 point);
- Fluent in English (minimum B2 level) (0.5 points).

Curriculum vitae and Academic Track-Record *(0-2 points)*
- Detailed CV (experience in research projects will be valued: 0.5 points per year up to 1 point)
- Academic grades (1 point)

Other Merits: *(Complementary Training) (0-1 point)*
- Specific training in European and International funding programmes (0.5 points);
- Experience in writing project reports and proposals (0.4 points).
- Functional Diversity equal to or greater than 33% (0.1 point)

Interview *(from 0 to 2 points)*
If applicable (an interview will be held if the difference between the first candidate and the second is equal to or less than two points)

Training/Roles to develop:
Roles to develop:
- Coordination of the Data Quality Supervision Committee (DQSC) and preparation of the quality reports of the databases based on data dictionaries before being introduced into HARMONY Data Platform.
- Support in all the activities related to the data management and data analysis, monitoring of indicators and risk assessment.
- Support and supervision of the scientific and technical deliverables of the whole consortium of the European project.
- Organizing the agenda and documenting the minutes of the Project Steering Committee meetings.
- Supervise the periodic and final reports to the European Commission (EC).
- Prepare and draft EC technical and financial progress reports in conformity with Commission's guidelines.
- Contribute and promote the European project publicity and results dissemination.

Contract/Fellowship characteristics:

-Full Time.
-Amount: 33.600 €/Gross year
-Lenght: 6 months renewable according to economic availability or duration of the project.
-Exclusive devotion.

Deadline for application submission: 30/04/2021

Required documents On-Line www.iislafe.es
-Updated Curriculum Vitae.
-Academic record with average grade.
-Documents accrediting the required Academic Degree.
-Documentation that justifies all the merits outlined.

The accreditation of work experience must necessarily be done through Labor Life issued by the Social Security Treasury, accompanied by work contracts or a document admissible in law, which reliably certifies the profession and the work category. The Social Security contribution group of the work life report must be in accordance with the work category expressed in the work contract or equivalent document, in case of discrepancy, the one reflected in work life will be taken into account. Any labor certificate, payroll or contract will not be considered if it is not accompanied by working life.

** The documentation submitted for this open competition will be on deposit of IIS La Fe.*
